

Politicians in Springfield...

*...talk too much...do too little...don't tell the truth...
...sell us out for campaign cash...**forget about us***

It's time for something different.

Endorsed by **Governor Jim Edgar**

State government is better when we have smart, qualified people who are willing to work with others. That's how we made Illinois work when I was Governor, and I'm confident Randy Keith can help make Illinois work again.

It's time for a **State Representative** who will get things done.

Randy Keith has balanced budgets, protected taxpayers, and worked in a factory for 40 years.

It's time to put Illinois **Back To Work.**
