

Chicago Politicians have it all upside down...

They Think...

Kids all learn the same way

Kids are worth more or less based on ZIP code

Kids need choices:
-great public schools
-charters
-opportunity scholarships

We Know...
Every kid is worth the same,
no matter their zip code

To Randy Keith, **every kid in Illinois** deserves a chance to succeed.

Randy Keith sent all five of his kids to public schools. But, Randy knows some kids learn better in different environments. Sometimes, they flourish in a charter school or need to utilize an opportunity scholarship to thrive at a private school.

Randy is supported by both teachers and education reform groups because they know Randy is an honest, up front leader who wants the best for our children.

Don't we want a State Representative looking out for our future instead of lining their own pockets with Chicago money?

Vote Randy Keith for State Representative **this Tuesday.** He'll put Illinois Schools Back to Work.

**Vote Randy Keith for
State Representative
March 20.**

PO Box 17,
Monticello, IL
