

Chicago Politicians have it all upside down...

They Think...

Kids all learn the same way Kids are worth more or less based on

Kids need choices:
-great public schools
-charters
-opportunity scholarships

Every kid is worth the same, no matter

We Know...

Randy Keith sent all five of his kids to public schools. But, Randy knows some kids learn better in different environments. Sometimes, they flourish in a charter school or need to utilize an opportunity scholarship to thrive at a private school.

To Randy Keith, every kid in Illinois deserves a chance to succeed.

Randy is supported by both teachers and education reform groups because they know Randy is an honest, up front leader who wants the best for our children.

Don't we want a State Representative looking out for our future instead of lining their own pockets with Chicago money?

Vote Randy Keith for State Representative Tuesday. He'll put Illinois Schools Back to Work.
